

Purpose of Job:

Total Energy Systems, LLC is seeking a qualified Service Specialist/Field Service Technician to work out of our Eden Prairie, Minnesota facility. Other Total Energy Systems facilities include Green Bay and Milwaukee, Wisconsin and Grand Rapids, Michigan. The Service Specialist/Field Service Technician will possess a level of knowledge regarding generator repair and operation that allows them to perform the tasks below.

Responsibilities and Duties:

- Perform preventative maintenance on power generator equipment, automatic transfer switches and switchgear.
- Trouble-shoot and repair problems with gas and diesel generators, automatic transfer switches and switchgear.
- Applicant must have a strong electrical background.
- Applicant must have a background with Gas and Diesel Engines.
- Perform start-ups on new power generation equipment.
- Responsible in helping build a customer base in our Minnesota, Wisconsin and Michigan Territories.
- Responsible for communicating with customers and management.
- Participation in the rotating responsibility of a 24/7 on-call technician rotation.
- Perform any other duty of task as may be assigned by the Service Dispatch Manager, Service Manager or Operations Manager.

Benefits:

- Excellent benefit package and 401K program
- Provided with company laptop and air card, cell phone, vehicle and tool list.
- Provided the opportunity to schedule your own work on a day to day basis
