

## **Total Energy Systems, LLC announces distribution of Kubota Generators.**

Total Energy Systems, LLC, of Green Bay, WI, announces today it has entered a distribution agreement with Kubota Engine America for their diesel generator line.

With this agreement, TES is able to distribute Kubota's line of GL, KJ and SQ Series Generators throughout Indiana, Michigan, Northern Illinois, Ohio and Wisconsin (with the exception of the northwest corner).

The agreement partners TES with Kubota's line of diesel generators known for their reliability and quality with cutting edge technology. Kubota Generators are available in a wide range of power output capabilities, from 7kW-22kW (single phase) and 22kW-28kW (three phase). In addition, Kubota generators offer quiet and clean operation with easy access maintenance panels.

"TES will offer another option to our already extensive product line," stated Chris Stiles, President of Total Energy Systems. "Kubota is known for their world-renowned engines and equipment we are excited at the new opportunities this agreement provides to both organizations. The addition of Kubota Generators is a commitment to our on-going strategy to expand our product offerings to our customers."

Mike Hartoonian, Director of Engine Sales for Total Energy Systems added, "As a Kubota Generator distributor, we have a business partner that shares our values and is committed to be a leader in our industry. Our team at TES has considerable experience in the power generation market and look forward to providing our customers an additional line of generators to meet their needs."

In addition to offering Kubota generators, Total Energy Systems is the exclusive distributor for Kohler Global Power Group's full line of power systems including industrial, marine, mobile, and residential generators, transfer switches and switchgear, for Wisconsin, Minnesota, North Dakota and western Michigan.

Besides the distribution of generators, Total Energy Systems also represents Isuzu, Hatz, Mitsubishi and Scania Diesel Engines in Wisconsin, Michigan and Northern Illinois.

Total Energy Systems entered the generator set market in 1958 and was awarded distribution for Kohler generators in 1993. In 1987, TES was awarded the distribution for Isuzu Engines, in 1995, Hatz engines distribution and in 2010, Mitsubishi and Scania engine distribution. With its new, state-of-the-art, corporate facility in Green Bay, WI, Total Energy Systems also has branches in Milwaukee, WI, Minneapolis, MN and Grand Rapids, MI.
