

Total Energy Systems, LLC Enters Distribution with Mitsubishi Engine North America, Inc and Scania Engines

Total Energy Systems, LLC, of Green Bay, WI, announces they have entered into a Engine Distribution Agreement with Mitsubishi Engine North America, Inc. and Scania Engines.

The agreement with Mitsubishi includes the full range of small and large bore engines within Wisconsin, Northern Michigan and Northern Illinois. Part are currently available to service both the engine ranges.

For Scania, the agreement covers the complete line of engines including: Industrial (Construction, Ag, Stationary, Defense, Material Handling) and Power Generation. Coverage will be for North Dakota, Minnesota, Wisconsin, Northern Michigan, Iowa, Illinois, and Missouri. Scania engines will be introduced during the first quarter of 2011 with parts and service available the last quarter of 2010.

Chris Stiles, President of Total Energy Systems, states, "Our plan in entering into distribution agreements with Mitsubishi and Scania will greatly expand our product offering to OEMs and engine users within our served markets. The addition of these lines is a commitment to our on-going strategy to expand our engine product offerings to our customers."

Mike Hartoonian, Director of Engine Sales for Total Energy Systems added, " We understand providing outstanding customer service and technical support is critical to our customer's success. For this reason, Total Energy Systems will maintain these engines in stock at our Corporate Headquarters in Green Bay, Wisconsin, with a comprehensive inventory of parts in our Green Bay, Milwaukee, Grand Rapids and Minneapolis locations."

Besides the distribution of Mitsubishi and Scania engines, Total Energy Systems also represents Isuzu and Hatz Diesel Engines in Wisconsin, Northern Michigan, Northern Illinois and most recently was awarded distribution in all of Michigan for Hatz Diesel Engines..

In addition to these engine lines, Total Energy Systems is the exclusive distributor for Kohler Global Power Group's full line of power systems including industrial, marine, mobile, and residential generators, transfer switches and switchgear, for Wisconsin, Minnesota, North Dakota and western Michigan.

Total Energy Systems entered the generator set market in 1958 and was awarded distribution for Kohler generators in 1993. In 1987, they were awarded the distribution for Isuzu Engines and in 1995, Hatz engines distribution. With its new, state-of-the-art, corporate facility in Green Bay, WI, Total Energy Systems also has branches in Milwaukee, WI, Minneapolis, MN and Grand Rapids, MI.
